To Whom It May Concern,

It is with great pleasure that I recommend Miles Crane for the position you seek to fill. Miles is one of the strongest computer science students I have had the honor to teach in my Intro to Computer Science, AP CS Principles and AP CSA classes. His motivation to excel, attitude, dependability, responsibility, and leadership qualities are commendable. I wish all of my students were as dedicated to learning and expressed an unwavering diligence in their coding and problem solving as Miles. I am honored to recommend him and know that he will be a wonderful asset.

Miles not only took advantage of courses offered in the Computer Science pathway but also classes within the Informational Technology (IT) pathway. Our school district is fortunate to have a student run "Help Desk" of which Miles is a valued member. He plays an integral part of maintaining and repairing teacher/student devices, solving issues with classroom tech gadgets, and offering tips and suggestions to teachers and support staff regarding various technologies. He is an incredible young man that understands the importance of hard work and dedication. I firmly believe that both his personal and academic strengths as well as his many skill sets will be a great contribution to you.

Miles is an exceptional student, and has my strongest recommendation. Please feel free to reach out to me with any questions 270-651-6315 or debbie.bunnell@barren.kyschools.us.

Sincerely,

Debbie Bunnell
