To whom it may concern:

Miles Crane has studied and worked for the Barren County Tech Office for four years. Miles entered the class as a freshman and his maturity and intelligence was shown immediately. Miles has helped inventory, process and enroll hundreds of Chromebooks, as well as troubleshooting many hardware and software related help desk tickets. In his position, he reported to me and performed his duties to the best of his ability.

Miles came into the class as a quiet individual but has developed into a personable and one of the strongest technical members of the team staff included. He has shown technical skills and a curiosity to learn. His interest in technology has only grown since entering this class and willingness to do whatever is asked of him. He is self-motivated and well capable of achieving any goal he sets his mind to. When Miles finds a subject that he is passionate about he will stop at nothing until he achieves his goals. Miles's ability to learn quickly and adapt to his environment makes him an asset to any team. He has learned new technologies promptly and applied them in his daily work. Miles has become knowledgeable in his time in the Tech Office and now strives to find new opportunities. He is always prompt and meets his deadlines on time.

If you would like additional information about Miles, you can reach me at (270) 576-8101.

Sincerely,

Kris Aquino  
Help Desk Teacher  
District Video Coordinator  
District Technology Service Specialist
